Vegetable	Best Companion Plants	Antagonistic Plants	Greenthumb Gardener Notes
Onion	Beets, Cabbage, Carrots, Lettuce, Parsnips, Tomato, Chamomile, Marjoram, Rosemary, Savory, Strawberry	Asparagus, Beans, Peas	Repels aphids, the carrot fly, and other pests. We also surround our gardens with onions such as scallions to deter many little creatures such as raccoons, rabbits, and deer.
Parsley	Asparagus, Beans, Radish, Rosemary, Tomato	Lettuce	Adds vigor to both tomatoes and asparagus
Peas	Beans, Brussels Sprouts, Cabbage, Carrots, Cauliflower, Celery, Corn, Cucumbers, Lettuce, Potatoes, Radishes, Squash, Sage	Alliums (Chives, Garlic, Onion, Shallots)	Adds nitrogen to soil
Potato	Beans, Celery, Corn, Garlic, Horseradish, Lettuce, Onions, Peas, Spinach, Radishes, Basil, Marigolds	Asparagus, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Kohlrabi, Carrots, Cucumbers, Eggplant, Melons, Peppers, Squash, Tomatoes, Raspberries, Strawberries, Sunflower	Cucumber, tomato and raspberry attract harmful pests to potatoes. Horseradish increases disease resistance.
Pumpkin	Beans, Corn, Squash, Marigold, Nasturtium	Potato	Grow well with corn.
Radish	Allium family (Chives, Garlic, Leek, Onion), Beets, Cabbage, Carrots, Cucumber, Kale, Lettuce, Spinach, Squash	Hyssop (the Herb)	Radishes make a great trap crop (attract pests away from another crop)
Sage	Beans, Cabbage, Carrots, Peas, Rosemary, Strawberries		Repels cabbage fly, some bean parasites.
Spinach	Beans, Brassicas family (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Kohlrabi), Celery, Eggplant, Leeks, Lettuce, Melons, Peas, Potatoes, Radishes, Tomatoes, Nasturtium, Strawberries		One of the early spring vegetables, so does not have many pests.
Squash	Beans, Corn, Peas, Radish (White Icicle), Borage, Dill, Marigolds, Nasturtium, Strawberries, Sunflower	Potato	Plant lots of marigolds around it to help confuse the squash vine borer from laying eggs.
Strawberries	Bush Beans, Chives, Lettuce, Onions, Spinach, Squash, Borage, Caraway, Sage	Cabbage Family, and plants susceptible to Verticillium (ie. Eggplant, Potato, Tomato, Peppers)	Borage makes an excellent border for strawberry patches.
Tomatoes	Asparagus, Carrots, Celery, Chives, Garlic, Lettuce, Spinach, Onion, Basil, Borage, Parsley, Marigolds	Brassicas (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Kohlrabi), Beets, Corn, Fennel, Peas, Potatoes, Dill, Rosemary, Walnut trees	Basil growing near tomatoes has been reported to improve the yields of them.
Turnip	Peas	Mustard, knotweed, avoid rotating after cabbage family	Hairy vetch and turnips make excellent companions.
Zucchini	Corn, Marjoram, Nasturtium
